Full Stack Developer with 3 years of experience in web and mobile projects. Focused on building scalable systems, optimizing databases and ETL processes, and creating clear, functional user interfaces. Experienced in working across the full development lifecycle and managing infrastructure in a practical and efficient manner.

PROFESSIONAL EXPERIENCE

AMISTAD MEXICO

Torreón, Coahuila

Full Stack Developer (Project-based contract)

February 2025 – October 2025

- Developed a comprehensive Supplier Relationship Management (SRM) system using Laravel 12 and React, centralizing supplier information.
- Designed the system architecture and functional mockups in Figma, ensuring alignment between technical structure and user experience.
- Built an independent supplier portal optimized for usability, scalability, and security, improving management and communication across departments.

AGENCIA INTERIOR 1X

Torreón, Coahuila

Full Stack Developer (Fixed-term contract)

July 2024 – Nov 2024

- Developed reusable and responsive components, standardizing the visual identity of the agency's digital products.
- Architected a dynamic quotation system using Laravel 11 and Tailwind CSS, accelerating the sales process for the commercial team.
- Led the complete redesign of the Universidad Tecnológica de Torreón website, improving accessibility and reducing load times through asset optimization.

IT SOLUCIONES

Torreón, Coahuila

Front-End Developer (Fixed-term contract)

August 2023 – July 2024

- Improved user retention by implementing interactive, mobile-first interfaces, using agile methodologies (SCRUM) for iterative deliveries.
- Collaborated in the refactoring of legacy code, improving maintainability and ensuring compliance with modern web standards.
- Designed the website architecture and functional mockups in Figma.

EDUCATION

UNIVERSIDAD AUTÓNOMA DE LA LAGUNA

Torreón, Coahuila

Computer Systems Engineering (seventh semester)

Agosto 2022 – Actualidad

Skills: Programming, server configuration, cybersecurity, networks, and hardware.
